Christian Göbl, MD, PhD | Austria

Department of Obstetrics and Gynecology, Division of Obstetrics and Feto-maternal Medicine, Medical University of Vienna

Christian Göbl is an Associate Professor and Senior Consultant at the Department of Obstetrics and Gynecology at the Medical University of Vienna. He graduated in Human Medicine in 2008 and holds a Ph.D. in Endocrinology and Metabolism, as well as an M.Sc. in Medical Biometry and Biostatistics. He leads the Metabolic Research Group, with a strong research focus on gestational diabetes mellitus, obesity, and pregnancy in women following bariatric surgery. His research also includes the evaluation of novel methods to characterize key components of glucose metabolism.
