PERSONALISED SUPPORT, POWERFUL RESULTS*

SPEAKER BIOS

**Sufyan Hussain,
MA, MB BChir, MRCP, PhD | United Kingdom**

Consultant Physician in Diabetes & Endocrinology, Guy's & St Thomas NHS Foundation Trust
Honorary Senior Clinical Lecturer, Department of Diabetes, School of Cardiovascular, Metabolic Medicine and Sciences, Kings College London
Member, Board of Directors, International Diabetes Federation, Europe

Dr Sufyan Hussain is a consultant Diabetes and Endocrine Physician at Guy's and St Thomas Hospital and Honorary Senior Clinical Lecturer at King's College London. He has a wide scope of practice in hospital and community settings. Dr Hussain maintains strong interests in research and clinical implementation of novel diabetes treatments including hybrid closed-loop systems, CGM and cell therapy. He has contributed widely in UK and Europe in areas related to clinical implementation, research, education for healthcare professionals and people with diabetes and commissioning and health economic reviews on diabetes technologies.

His current research interests include hybrid-closed loops (HCL), understanding the support needs for using technologies effectively, diabetes distress and cell therapy in diabetes. He was awarded prestigious research grants from the Wellcome Trust, Medical Research Council, JDRF, and European Commission. He has authored best practice guides and consensus statements for diabetes technologies in the UK and internationally, lead author for the UK ABCD-DTN Best Practice guide for HCL and the International Consensus Statement and Guidance on Open-Source Automated insulin Delivery Systems.

Dr Hussain has over 31 years personal experience of living with type 1 diabetes and is passionate about improving care and advocacy for diabetes.
