

We are excited for you to meet Stelo through our educational trial program. Enclosed you will find a Stelo by Dexcom Glucose Biosensor (“Stelo”). Stelo is an FDA-cleared, over-the-counter (OTC) integrated Continuous Glucose Monitor (iCGM) intended to continuously measure, record, analyze, and display glucose values in people 18 years and older not on insulin and who are not at risk of problematic hypoglycemia. Stelo is not a replacement for iCGM Systems. The Stelo Glucose Biosensor System helps to detect normal (euglycemic) and low or high (dysglycemic) glucose levels. The Stelo Glucose Biosensor System may also help the user better understand how lifestyle and behavior modification, including diet and exercise, impact glucose excursion.

By accepting this Stelo sample, you agree that this sample is only for your personal use and cannot be provided to another individual. You agree not to sell, resell, barter, return for credit, or seek reimbursement for this Stelo sample.
