PERSONALISED GUIDANCE
powerful results*

Rich Bergenstal is an endocrinologist and Executive Director of the International Diabetes Center, HealthPartners Institute. In 2010 he was the American Diabetes Association (ADA)'s President, Medicine & Science and ADA's Outstanding Physician Clinician in 2007.

Dr. Bergenstal was Assistant Professor at the University of Chicago, before joining the International Diabetes Center in 1983. He is an adjunct clinical professor of medicine at the University of Minnesota.

He has been site PI of several NIH trials (DCCT, ACCORD, GRADE) and has worked to standardize CGM and AID metrics and data display in the Ambulatory Glucose Profile (AGP) Report. Working recently on integrating CGM data into the EHR and organizing CGM data help guide and personalize diabetes management.

*Results with Dexcom CGM have been proven in over 70 clinical studies, data available on clinicaltrials.gov. Dexcom Data on File, 2026.
